

## Project Discovery Form

Please complete to the best of your ability and email to [ethomas@saavihome.com](mailto:ethomas@saavihome.com) upon completion.

Project Address: \_\_\_\_\_

Current project timeline (ex: permitting, design, pouring foundation, dried-in, etc.) : \_\_\_\_\_

Does the construction budget include low voltage prewire and/or allowance for AV equipment/ Automation System? If so, what is that budget? \_\_\_\_\_

When do you anticipate electrical and low voltage prewiring to be completed? \_\_\_\_\_

Please tell us a bit about this project! What are the ultimate technology goals?

What vendor agreements/paperwork do you require for this project?

**Please see page 2 and help us to determine which systems will be implemented for this project. We'd like to know as much about the project as possible for an accurate proposal.**

Please select the AV solutions that apply to this project:

<p><b>Audio and Video Systems</b>            ex: Flat panel TV's on the wall, in-ceiling speakers with centralized amplifiers and sources. Music system controlled by phone, tablet or voice. Each room's source and volume can be controlled independently or grouped together.</p> <p>Please list all rooms that you would like the OPTION for either TV or audio:</p> <hr/> <hr/> <hr/> <hr/>	<p><b>Lighting Control Systems</b>            Smart lighting control of some or all of the lighting loads in the home. Control lighting and scenes throughout the home, save energy and wall clutter.</p> <p>Please list all rooms that you would like the OPTION for lighting control:</p> <hr/> <hr/> <hr/> <hr/>	<p><b>Home Security</b>            Monitored intrusion system with door/window sensors, glass break and motion detectors, arm/disarm keypads and siren. Authorities are alerted if/when a sensor is tripped.</p> <p>Do you want extra keypad locations? Do you want smoke/fire/CO2/leak detection monitored as well?</p> <hr/> <hr/> <hr/> <hr/>
<p><b>Video Surveillance Systems</b>            Surveillance cameras to capture motion throughout the property. Catch and deter motion events, view live and recorded images from phone or tables. Professional surveillance system that holds up in court.</p> <p>How many entry/exit points around the perimeter of property? How many cameras are you interested in?</p> <hr/> <hr/> <hr/> <hr/>	<p><b>Home WiFi Network</b>            Wireless network coverage in the home, wired network jacks. Maximize speed, stream/connect to Internet at all corners of the home</p> <p>Please indicate whether you need wireless coverage across the entire home? Is there a home office or any room that needs a hard wire connection?</p> <hr/> <hr/> <hr/> <hr/>	<p><b>HVAC and Home Control</b>            Centralized control system with main brain that allows for multiple sub systems to communicate. Control home from afar. Thermostat talks to shades, Universal remote controls, etc.</p> <p>How would you like to control your music? TVs? Thermostats?</p> <hr/> <hr/> <hr/> <hr/>
<p><b>Dedicated Home Theater</b>            Entertainment or relax areas of the home with dedicated surround sound. Usually main TV watching zone. Suspension of reality and immersive experience.</p> <p>Where do you envision your main TV watching spot? Movies or Sports? What do you typically watch? 5.1, 7.2, Dolby Atmos?</p> <hr/> <hr/> <hr/> <hr/>	<p><b>Window Treatments</b>            Window shades controlled either manually or automatically by phone or keypad on the wall. Cover hard to reach/big windows. Set scenes, communicate with HVAC.</p> <p>Which windows need covering? How would you want to control the blinds? Are you working with a designer on the window treatments?</p> <hr/> <hr/> <hr/> <hr/>	<p><b>Outdoor Entertainment</b>            Outdoor music, TVs, WiFi or landscape lighting. State of the art outdoor environment. High quality music that doesn't disturb the neighbors, beautify landscaping and create relax areas at night.</p> <p>Where might these make sense? Landscape plan? Who is handling the landscape lighting?</p> <hr/> <hr/> <hr/> <hr/>
